Subject: Regulation Z

Gladys Ramirez
Principal Broker
299 Alhambra Circle Ste 226
Coral Gables, Fl 33134

Not Only the Federal Reserve System recently proposed amending Regulation Z give and unfair competitive advantage to bank, but also it looks like the Fed is trying to blame the whole economic situation of the country on Mortgage Broker.

I believe that all disclosure should apply equally to all mortgage originators. Then, all mortgage originators will be able to compete on the market based on price and service.
Thank you,

Gladys Ramirez
