Subject: Regulation Z

I am opposed to this proposed legislation! The Federal Reserve Board is not a FEDERAL Entity, but a group that has an illegal and clandestine agenda to rob and steal from the American public.

Since 1913 (Dr. Jeckyl Island), the Federal Reserve has had only one purpose, to conspire against and bankrupt America.

Do not pass this suspect and nefarious proposal to further destroy the American economy, this is a self serving law by the Federal Reserve to further damage the American Economy.

Ban the Federal Reserve! This will be a more beneficial legislation to help the American Consumer, the Federal Reserve is illegal and only destroys the U.S. economy!!!
