Federal Reserve Board Email comments

Dear Email comments,

Because I pay my credit card bills prior to due date, I am surprised

that additional credit card companies would want my business. However, in their mass mailings I assume that they try to get individuals of most ilks in hopes that they draw some that will overcharge to their account and be obligated to pay interest. There needs to be some control over these charlatans.

.

Sincerely,

Dr. Wendell Liemohn
