Diamondhead, MS 39525

The information publishe about credit cartd debt is for thr most part an outright lie. The credit card debt held by over 50% of Americans exceeds \$10,000 per the national news. The average interest rates exceed 18%. The banks are as corrupt and dishonest with their credit cards as they are with their mortgages. I have one credit card and a credit score of 700 and pay 21% annual interest which is criminal
