Federal Reserve Board Email comments

Dear Email comments,

Credit Card reform is overdue. CC Cos. take advantage of students and parents by their practices of lending to uninformed.

A wonderful 'green solution' would be for CC Cos. to pay for their own postage for the routine applications and printed checks they mail daily. No one could fill out so many applications as are mailed.

CC Cos. need limitations on their practices as they have demonstrated their unwillingness to consider fairness in their lending practices.

They only care about obligating the public to livees of continuous debt obligations.

Alston Moore

Sincerely,

Mr. Alston Moore
