Subject: Regulation AA

I am tired of my credit card company. They keep adjusting my interest and my payments always go to the amount that has a higher interest. I have tried to get them to lower it by complaining that I always pay on time and that I should be adjusted to a lower rate. They are rude because they can be - - and if I want to go to another card I will be charged... Guess? More money!

I get no rewards, no benefits to having my card and I'm stuck.
