Federal Reserve Board Email comments

Dear Email comments,

I received a pre-approved credit card offer for a 3% lifetime interest rate. I applied and when I received the card they had did a bait and switch on me. The interest rate was jacked up to 29.99% and I had a FICO score of [REDACTED] at the time which is excellent. They had no phone number to call and only an email address. Please stop these flat out scams from happening.
R. Tarle

.

Sincerely,

Mr. R Tarle
