Jul 25, 2008

Federal Reserve Board Email comments

Dear Email comments,

There are people I know who will be paying on old credit card debt until they die, they are not cheats, they are people who struggle to meet payments each month. They are the victims of the banks who have added all kinds of charges, upped their interest to 30%. They have long since paid off their original bills, but they are being ruined because Congress allows this to happen. Stop the Credit Card robbery now!

.

Sincerely,

Ms. Dean McGarity
