Subject: Regulation AA

Jul 24, 2008

Federal Reserve Board Email comments

Dear Email comments,

When will the people who have the power, the politicians, stop the "legal loan sharking" the credit card companies get away with. Big business and banking seem to do whatever they please, and answer to no one. Show the people that the politicians see the plight

that the average American is subjected to, just trying to get by day to day!

.

Sincerely,

Mr. William Spedding
