Subject: Regulation AA

Jul 24, 2008

Federal Reserve Board Email comments

Dear Email comments,

There is no reason that they should have to have interest rate more than 5% to 10% on any cards This is why the middle class can't pay there bill"s when most credit cards are 24% and putting on extra

payments if your late.Things are bad enough with every day things going up like gas, food

.

Sincerely,

Mrs. Phyllis Corda
1307 Norton St
Wausau, WI 54401-2999
