Federal Reserve Board Email comments

Dear Email comments,

It's aboutr time the Feds jumped in and helped us middle class. Credit cards are issued way to easy these days and all the small print never gets read. Please help put a stop to the sleazy tactics that these banks use and limit the amount they can charge in interest. 10% should be the ceiling on ANY charge cards!!!!

thanks,
rick

.

Sincerely,

Mr. richard morrow
