**Subject:** Regulation AA

Aug 21, 2008

Federal Reserve Board Email comments

Dear Email comments,

I think these rules are extremely important. If we allow debt

(particularly credit card debt) to continue unabated in this country we could very well see another depression, perhaps not as severe as the

1930s, but at least as bad as the one in the 1980s. Thank you for your concern over these matters.

Sincerely,

Mr. Jason Fry
