Aug 21, 2008

Federal Reserve Board Email comments

Dear Email comments,

I have talked to several friends that tell

nightmare stories of interest rates raised to as much as 29% because of a computer algorithm. This must be stopped. This is a crime allowed by the Congress. This is part of the reason Congress has lost all respect.

The Mortgage details are written by the same companies that write the credit Card details.

that's why we say "the devil is in the details". Pray for term limits.

Sincerely,

Mr. Charles Aiello
