Subject: Regulation AA

Aug 21, 2008

Federal Reserve Board Email comments

Dear Email comments,

I would like to see the credit card companies stripped of all their predatory protection given them over time by the Republican administration, to include their ability to charge whatever they feel like for late and "over-the-limit" fees. Also, remove their "bankruptcy first" clause. Even though outfits do deserve their just due in bankruptcy, credit card companies have made it too easy for people to get themselves in trouble and our economy's state

doesn't help either. When you have no money to pay your medical bills, credit cards seem to be the only alternative sometime. /Roy

Sincerely,

Mr. Roy Gertig
