Subject: Regulation AA

Jul 25, 2008

Federal Reserve Board Email comments

Dear Email comments,

The credit card companies are running rampant over the card holders. They arbitraialy make new rules after persons become card holders. In business law, there is a rule of fo 'a meeting of minds'. The card issuers demand that card holders accept the rules and on their terms. What ever happemed to the old moto, 'the customer is always right?

Sincerely,

Mr. Thomas Roberts
