**Subject:** Regulation AA

To Whom It May Concern,

I am writing to support the reserve's proposed new regulations effecting the practices employed by credit card companies.

There is an obligation to provide oversight and control on the interests who would have the public as permanent debt-slaves, and given the failures in oversight over the credit market in recent times, it is encouraging to see some action being taken here. Please choose people over corporate profits in this matter, and enact meaningful controls.

Regards,
