**Subject:** Regulation AA

Jul 25, 2008

Federal Reserve Board Email comments

Dear Email comments,

I strongly urge stiff regulations on these credit card companies. While

it may stop the habitual late payers (and I say MAY) it penalizes those of us that strive to pay our bills on time. Not to mention all the other crap these companies pull. When is the government going to stop listening to big business and for once, that the side of the people???

What these companies are doing to us is ridiculous. PLEASE, stronger regulation.

.

Sincerely,

Ms. Nancy Aymond
