Federal Reserve Board Email comments

Dear Email comments,

credit cards companies need to stop sending credit cards to people who are not asking for them. also fine print rules are meant to take advantage of people who need credit. this almost smacks of subprime mortgages given to people who were unaware of the pitfalls down the road. people need credit and they are being abused by the credit card companies. change the rules and stop the unfair practices of the card companies.

.

Sincerely,

Mrs. dora kolker
