**Subject:** Regulation AA

There are a lot of things wrong with this country that the government has either ignored, or overlooked. Most of the injustices originating with big businesses and lobbyist that pour money into our politicians coffers. I could write a 30 page report on this, but for now would you please do something about Docket No. R-1314 and provide some protection to the consumer that is badly needed? The Credit card companies are crooks, plain and simple!!!
