Comments:

Please have the credit card companies allow a reasonable amount of time for mail delivery of the current bill, and delivery of payment.

Often, i have been charged late fees because the payment was due within a few days of my receipt of the bill. For example, a bill is printed on Aug. 1, postmarked Aug 2, delivered to me on Aug 7, and due Aug 11, at which point late fees apply. The credit card companies appear to "rig" the system so that I can't get my payment in on time. Thank you.
