Ms. Jennifer J. Johnson

I find it a total embarrassment that our Congressional leaders allow the unjust/unfair/immoral charges and hidden fees to exist on the credit cards of American consumers. They all should be thrown out of office for allowing banking and credit card lobbyists to influence their thinking at the expense of the American consumer.

If they need help figuring out what would be fair, please contact me.

I am extremely intelligent, honest as the day is long, and unemployed. I can assure you that I could do a better job than the insensitive mopes who are in the United States Senate or House of Representatives.

I look forward to hearing back from you.
