Subject: Truth in Lending

Credit card companies are only giving 25 day cycle periods to pay
Sometimes you get the bill in the mail at the 12th day of cycle if you pay the day you receive the bill
It may get there by the 17 or 18 day of cycle
Then the fine print reads we have 5 to 10 days to process
So when they process your payment it may become a late payment
FIRST EQUITY is a prime example
You really cannot pay by mail or thru your online banking
You are forced to use their online payment
