Federal Reserve Board Email comments

Dear Email comments,

Please support the Federal Reserves' new proposed rules on credit cards companies' abilities to engage in unfair practices on consumers. For

years, the credit card industry has been able to buy Congress to ignore carte blanche abuses on the American people in the form of unfair interest rate hikes, penalties and sneaky practices. They need to be stopped. With the tough times the American people are experiencing with layoffs, high gas and food prices and a flat housing market, the average person does not need to be abused and harassed by credit card companies engaging in unfair profitmongering.

Thank you.

.

Sincerely,

Ms. Michele Morgen
