Federal Reserve Board Email comments

Dear Email comments,

Credit companies have become the cancer of our system. Free enterprise belongs in another part of the economy. They don't help people, they

make them dependent victims of big business. Why should people be able to buy without paying? Then why should those same people have to pay double or triple in order to keep what they buy? The American Way needs to go another direction, not to hell.

Sincerely,

Ms. tanis fletcher
