Federal Reserve Board Email comments

Dear Email comments,

I believe that the Fed has enough rules on books to rein in the credit card companies -- all it has to do is to enforce them. A few powerful

members of our Congress and the Bush Administration both have benefited from gifts, bribes and campaign money from the K Street lobbies and they have done little to curb in our greedy corporations except for a few cosmetic touches here and there. It is time, we, as citizens, find new ways and leadership to rein in our politicians.

.

Sincerely,

Dr. Dinkar Kasbekar
