Subject: Regulation AA

Comments Federal Reserve Board

Dear Comments Federal Reserve Board,

The credit card companies need much stronger regulation, they increase interest rates with no notice, raise minimum payments so that they are impossible to pay, and make it so much harder on people, when things are already so difficult in this country economically. Make them treat people the way they should!

The new proposed credit card rules curb some abusive lending practices that drive consumers deeper in debt. I urge you to implement these rules to provide relief to people like me who just want a fair deal from credit card companies.

Sincerely,
Denise Cigliano
