Comments:

I have been caught in several unfair practices, reorder of billing, charging late fees when the bill was just slow in the mail. i.e. the bill is posted 2 or 3 days before due, but arrives a day late.. My credit card company tends to have a billing center on both coasts and require me to send it to the west coast when I am on the east coast even though they have a billing center in mississippi.. Changing interest rates on me "Because of a late payment" with the only option being to close the account..... I now have one credit card that is closed with a \$2000 balance that I am paying off because I would not accept the interest rate change from about 22% to 35% , another card has upped the interest rate to 30 something present with no option to close the account a keep it at the original lower rate... Now I'm having a hard time paying off the debts because of the outrageous interest rates that they think they can command... needless to say I am not using them any more except as a last resort.. Lets add to this the regions back that I am fixing to leave for their piss poor practices that have cause even more problems because they LOST a deposit, they have reordered checks causing the mortgage payment to bounce instead of just the \$12 check that was the problem.. then charged \$39 for each +

an extra fee because of the morgage is over \$1000 If something is not done soon!!! I will just have to quit using all banks & lenders and go to a cash only economy.. I will stop my rant now, even though I could probably digg into my records and fill a few pages with the BS that the banking instutution have put me thru.....
