Subject: Regulation AA

Comments Federal Reserve Board

Dear Comments Federal Reserve Board,

We desperately need some usury laws to curtail these high interest cards. The rates charged make it impossible to ever pay some cards off. This is not economically beneficial to our country nor is it moral. It is way past time to do something about this problem. Help!!

The new proposed credit card rules curb some abusive lending practices that drive consumers deeper in debt. I urge you to implement these rules to provide relief to people like me who just want a fair deal from credit card companies.

Sincerely,
Joyce Pritchard
