Federal Reserve Board Email comments

Dear Email comments,

Asking the Federal Reserve to monitor the credit card companies and force them to change their tactics is like asking a doctor to sue himself for malpractice! The Federal Reserve is a privately owned entity...owned by BANKERS. They are the ones who issue those credit cards. Behind every credit card is a BANK(ER). Asking them to change their credit card tactics is like asking them to shoot themselves in the foot. What really needs to be done is to get rid of the Federal Reserve. When we have done that...then, and only then, will you solve the credit card abuses. Please also keep in mind that it was the BANK(ER) that came up with the credit card scheme and then promised us all "the good life", in the 80's, if we had one or two of them. Because of those "good life" cards, our country has

never seen so many bankruptcies as they have in the past 17 years. Now people are losing their homes...why? Because of these very same BANK(ERS). Get it? Federal Reserve "BANK"...

.

Sincerely,

Ms. Sandra Goodstone
