Subject: Regulation DD

I would very much like to have the debit card "Denied" if there is not funds in the account.

I tried to get it from WAMU this week, because my husband is 80 years old, has a \$300 budget every month that he uses as he wishes. He thought that as long as his debit card works he could spend as much money as he wanted.

It is a very delicate situation. I hate to make him feel stupid. He is a professional musician and doesn't care about money, he cares about music.

So, it might save fights if when his \$300 is gone, his card is denied at the store.

Thank you,

Suzanne Crandall
