**Subject:** Regulation AA

Jun 30, 2008

Federal Reserve Board Email comments

Dear Email comments,

hello, my name is kimberly and i want to say how have people become so cheated and ripped off right under our noses? evidently our government is allowing this, so these people are the same as the criminals that are sitting in jail only its being done legally. I am so sick of the prices today, every company, establishments etc have become way too greedy because our system allows it. Something needs to be done about regulation, we definately need it back so that americans will stop

getting ripped off by people who are protected by the law that says its legal when in fact its illegal to take so much and charge so much to people. We need a whole new government who are for the people and not against the people! People are very ignorant but the people running this united states are even more ignorant because they can't seem to

see the damage they are doing to the future generations and to america. America is not great anymore, it has become nothing more than GREED,

GREED, GREED! Please realize how this is affecting our next generations and get on the ball and do what is right for the sake of america and its people. thankyou, kimberly kopitas.

.

Sincerely,

Ms. kimberly kopitas
