Kraus Anderson of Minneapolis MN, 55404 is involved in Preadatory lending practices and I am a victim of their unethical (at least) if not criminal lending practices. I have been dealing with Carl Carlson who si VP in teh lending division of Kraus ANDerson, they have several different business entities involved with financing eqiptment, Insruance, and Construction to name a few.

they financed a lemon 65000 piece of construciton equipment that I shoudl ahve never been approved for with a credit score of 584 at he time of purchase, all my credit cards had been maxed out for about ayear and I was late on my truck payment through Gmac.

They are white collar criminals that take advantage of anyone they can and have taken severla different ACH withdrawls from my chekcing account with my approval.

They are refusing to help me with the lemon they have financed to me becasause it will affect their botomr line and they would rather ruin a man and his family financially than do the right thing when it comes to lemon policies and the law about lemons.

The Equipment dealers they use to finaince theses unethical and preadatory loans through have been caught red handed in neglect, verbal and physical intimidation scare tactics, as well as fraud on wrongful equipment rental. I have been in a living nightmare for over a year now and this comapny has ruined my cedit, ruined my business, ruined my family life, and brought me to the point of having a nrevous breakdown. someone please help me write this terrible wrong that has been done to me and let me part ways with Kraus Anderson and teh lemon they ahve financed to me that lpaid over double the cost of what the actual value of the equipment is.
