Federal Reserve Board Email comments

Dear Email comments,

I'm very young to be on Medicare, 53 due to a motorcycle accident. I thank God that I was able to start drawing benefits when I did for fear of them not being there in my later years! However the living on SS Disability for a sole income with medicare as my only medical coverage has truly opened my eyes! Medicare as I see it is set up to fiscally drain all Americans of any and all assets they may or may not have set aside! my mother has lost her home, and I'm not far from the same. If not for medicare subpliment from Health Net, I would view myself as having no medical coverage except for standard primary care routine office visits! I'm currently looking into moving to a foreign country in order to be able to afford medical, housing, utilities, and most of all food! As it is now here in Tucson, Az. the only way I'm able to eat half way correctly as I'm diabetic, is to go and search for food banks! Please do all that you can to correct this shame to America! I worked all of my life 31 years as a plumbing contractor, and for over 25 of those years paid maximum SS deposits! Where is the justice? America USED to be the strongest most lucrative, sought after place to live in the world. It has now become nothing more than a haven for third world illegal immigrants to suck up all of OUR benefits! While the ones that paid in ALL those benefits starve and go without medical care! I currently need life changing surgery, if not for my subpliment medicare would not pay! Please address and correct this problem! I know the legal system in this country has caused our medical to go off the Richter scale of affordability! Who passed the laws? DC, Change them NOW!

Sincerely,

Mr. Tony Lott
