Federal Reserve Board Email comments

Dear Email comments,

Please impose the strictest possible controls on credit card companies.

The credit card industry has been making record profits, thanks in part to abusive practices such as charging unwarranted late fees, interest charges, and interest rate hikes. Especially now, with the slowing economy, more Americans are apt to run into problems with their credit card companies, and many people are ill equipped to combat abuses by these rapacious corporate entities.

Thank you,

Sincerely,

Mr. david bolick
