Federal Reserve Board Email comments

Dear Email comments,

Credit card debt is threatening to become the next financial disaster facing our country. The rules proposed by the Federal Reserve are urgently needed. Although I am credit card debt free, I have friends who are weighed down by credit card debt and are having a difficult time dealing with increases in interest rates and the short times allowed for payments.

Please make sure that the proposed credit card rules are enacted as quickly as possible.

Sincerely,

Mr. Clifford McCready
