Federal Reserve Board Email comments

Dear Email comments,

Washington Mutual just contacted me and said they were raising my interest rates do to a change in my credit score. My change was do to refinancing my home, which made my credit score drop. I have made bigger payments then required and haven't been late. They should only be able to raise it if I was delinquent with their account. They don't even know why my score dopped, pure highway robbery!!! As long as our wonderful government bails out these financial Institutions there are no risks for them so they will just keep taking!!! Someone needs to hold them accountable, as an individual, on ethics charges. I have to go, I'm starting to have evil thoughts!

Sincerely,

Mr. Chuck Coombs
