Federal Reserve Board Email comments

Dear Email comments,

It is time to step up for those in the middle and lower classes. The credit card companies have been allowed to bilk the American public for way too long. With gas at \$4.00 a gallon, food and electricity prices soaring. The average American can hardly afford to go to work and keep their families fed. Please step in and put a stop to the abuses of these companies. After all, how fair is it, for example, that if someone is late on one credit card all the cards rise the APR. In no other industry can individuals put policies like this into action. Please, stand up for the American public and disallow the abuses that have been allowed for so long.

Sincerely,

Ms. Kathy Wunder
