Federal Reserve Board Email comments

Dear Email comments,

I am writing to inform you that, as a constituent, I am very concerned about this issue.

The Federal Reserve should represent the people and not big business such as major credit card companies. Consumers must not be taken advantage of by these practices. These new rules must be put into effect. In addition, credit card companies should be mandated to make it just as much a priority to correct errors on individuals credit reports as they do reporting information.

.

Sincerely,

Mr. Lou Ferraro
