Federal Reserve Board Email comments

Dear Email comments,

I have always seemed to be in a work environment that was under going

constant change, confusion and chaos. My husband was disabled in 1986 -i have always paid my bills on time top priority .I drove old cars and did not live any high life. I keep paying and paying and I do not get ahead. I did not have a college degree .I have one now. I was taught that the paper work is globally messed up and Management was not paying attention. I have a BUSINESS ADMINISTRATION DEGREE. I know all about economies of scale. Well my scale had better get fixed. If you keep toosing people out and pitting them agaist each other and think we should protect large sums of money from terrosists and Money luadering YOU ARE INBSANE. You report coworkers not appling payments ,piles of work not being done. NO ONE LISTENS. we have lots of broken systems. Older women have gotten the short end here. No one listened ,no one believes no one seems to get the timing problem. I do not know how long Banks knew but i have been underpaid and mistreated since 1994. I went back to school to get ahead----You do not let Older WOMEN get

ahead. I can not reach in the computer and fix these problems. Business write off millions. Regular people get stuck paying and paying. Well I will attest to that. I have been outsourced ,out placed fired at will to cover up incompetence or hostile environment. I want my money back. Illinois is only supposed to charge 9 % any thing over this is that is usarry. I think a whole lot of people have been messed around enough. Tossed out ,run off, sabatouged ,lied to and lied to some more

.Some adjustment has to be made. I have worried about bills and jobs all

my working life. I do not want terrost in my business .if the accounting is so sloppy FOR YEARS and this is common business knowlede. Break down of internal controlls and Sox FIX MY CREDIT .Organized labor RSB web site admitts to these problems.

Quit pushing this under the rug.

You think your workers are so worthless and that you can just hire anyone to work in Banks and around money. Well that is not a very good plan. We have terrible people in this country that do everything they

can to go against the system. Companies used to know who was doing what were and when.

I never paid that much attention to my unfair charges I was to busy trying to pay attention to MY JOB and it was always leaving. So many people just keep getting tossed out ,BULLIED< MOBBED .you write you call I PROTEST What good did it do. Is anyone listening to American

workers NO and I do not want my IDENTITY OFF IN INDIA.You do not protect people enough here.I will be MORE THAN HAPPY TO GO TO

WASHINGTON THis need to be ADDRESSED.You do not know if you are talking to the right person did the mail get to who it was supposed to This bill is miscoded computer crashes

.

Sincerely,

Mrs. Patricia Navadomskis
