Federal Reserve Board Email comments

Dear Email comments,

Dear Sirs, Please take time to consider what the credit card companies are gouging us and use the laws to fit their needs. They up rates for no reason, charge if we are over 1 minute late and give u leess time to pay and with the prices of gas, groceries, etc, you will have more violence and street crimes for innocent victims being targeted just to pay these bills. please do something now before its to late. stop the credit card comp from screwing us as well. People will just stop paying their credit card bills, ruin ur credit if possible all for money in their pockets. Enough is enough. The bible says it for us, Money is the root of all evil. Please stop them.

thank you,
scarla boyd

I am retired and live on s.s. and barely surviving and worked all my life till I got hurt on the job and forced to retire early. If you don't help the people of this great country who will?

.

Sincerely,

Ms. scarla boyd
