Federal Reserve Board Email comments

Dear Email comments,

The Banks and Credit Card Companies in this country are getting away with LEGAL USURY. As just one example, I was provided one of those 0% for such and such term, the Rate supposed to revert to the standard at the end of the term, that only 14%. But it turned out there was a hidden 'scam' there that one would have had to be a Lawyer to discern and no sooner was the Low Interest 'Term' up the Interest went up to 29.9%. I COULD NOT BELIEVE IT! So I called the Customer Service department and I informed the personnel there as follows: "You know, it may not be in your Frame of Reference but Tony Soprano only charges 20%. The going rate for Loans from Gangsters 'on the street' is One for Five or 20%."

The person on the phone got the 'message' but as she informed, me, "I only work here. You can try contacting the Executive sector." She gave me the address in Maryland but I didn't bother because these people are already well aware of the CRIME they are GETTING AWAY with thanks to a COMPLICITOUS U.S. Government. And then YOU folks want to try to BULL us as to your 'concern' about the Economy. IF the PEOPLE could get HONEST Economic Support at least in terms of their necessary Credit and Loan needs, they could manage to survive and keep their Professions and Businesses going. Didn't ANYONE there in this Government ever come to that realization. Obviously NOT!

Sincerely,

Mr. Shelly Rusten
