Federal Reserve Board Email comments

Dear Email comments,

It's time for credit card companies to be held accountable. There need to be some rules that promote fairness and integrity. They have been

free to do as they please for too long, and the American people and our economy have been paying for it.

I personally know several people who's lives have been ruined by credit card debt. I myself have had disputes with credit card companies because of their unethical practices.

It's about time they play fair. Please do all you can to get them to institute fair and ethical business practices.

Thank you very much for considering my comments.

.

Sincerely,

Ms. Moraima Suarez
