**Subject:** Regulation AA

Jun 12, 2008

Dear Email comments,

P L E A S E firmly establish these regulations on the credit card companies. The American people have been and continue to be taken advantage of every time we turn around. The greed and deception that is driving businesses is running amock. Please protect consumers who need the help of credit (and are willing to pay the interest it "costs"), especially as the cost of living continues to rise. We've paid the price of corporate greed ENOUGH, many times over

.

Sincerely,

Ms. Marilyn Fisher
