Banks & Credit Card companies sometimes rip off customers for checks being mailed to themselves - when unfortunately having US Postal Service problems when mail when somewhere else by accident. That has happened over few past occasions, and please allow to now accept Docket No. 1315.

Sincerely,  
Shawn Delmar

I would like to have the choice up front to enroll in an overdraft loan program. Please require the banks to give me that choice before charging me a fee.

Close the loophole that lets banks make cash advances to consumers without providing truth-in-lending protections and cost disclosures.

I support your plan to ban overdraft fees on debit holds. Please go one step further and ban overdraft fees when the funds are in my account but haven't cleared yet.

Please ban the practice banks and credit unions have of withdrawing my largest checks first. It is unfair to manipulate the order in which debits are processed to maximize fee revenue while routinely covering overdrafts and charging big fees when they do.

It is deceptive for banks to claim that automatic "bounce protection" is discretionary while also representing that consumers can expect the bank to cover overdrafts or while permitting consumers to overdraw at the ATM, POS or through preauthorized debits.

Require financial institutions to separately report checking account fee revenue for insufficient funds and for overdrafts. That way we will know how much money they make off this unfair and deceptive practice.

I would rather have my debit purchase denied than pay a \$30 fee for overdraft protection.

Sincerely,

Shawn Delmar
