Federal Reserve Board Email comments

Dear Email comments,

Credit card companies MUST be reigned in for their terrorist attacks on consumers. I have also had many instances of the credit card company changing my due dates, applying all my payments toward lower interest rate balances and have even had my interest rate increased from 13.9%

to 28% for an erroneous entry on one of my credit reports. Needless to say, I canceled that card and transferred the balance where that new company applied all my payments to that lower interest rate. This has got to stop. Consumers are having their hard-earned dollars hijacked by corporations (who, by the way, are NOT citizens).

Please enact the proposed credit card rules as soon as possible.

Sincerely,

Ms. Laura Hastings
