Federal Reserve Board Email comments

Dear Email comments,

Re: Docket No. R-1314 Enact proposed credit cards rules ASAP
The Federal Reserve must take action to stop credit card company abuses. Companies must be stopped from hiking interest rates on existing balances (unless you're late). For credit card companies to charge interest on debts paid the previous month is criminal. We have very good credit but still live in fear every month that something will be changed by the credit card companies that could threaten our good credit as I am disabled and we are on a tight budget. We personally are receiving bills later and later all the time. We have received statements and find that they are due in 7 days from the day we received them. Please protect the public and end these abuses.

Sincerely,

Susan Deaton
