Your Message :

That was the whay the affil.org site had to say.I think they are right. I myself have over 15000 dollars in credit card debt. That has accumulated from 2 months I was unemployeed 2 years ago. I just get by as is. I only eat vegetables from cans. and I work all of the hours I can get at my gas station job. I can afford to go to school and get a better paying job because of this debt but it is the only way I could ever pay this debt off as things are. The amount of interest I am being charged is around 200 dollars when the most I make a month in around 1100 dollars, It doesn't seem that bad until you add all of the money it costs just to pay the rent food electric bills. Please make legislature to help people like me get out of their debts and help this country where it needs the most help  
sincerly
