Comments:

I believe that it is UNFAIR that banks can take up to 5 days to process your cash deposits but take out debits almost within seconds. This causing you to have money in the bank that you can not use for 5 days. Cash deposits should be automatically posted. I got charged five 39.00 fees in one week by Bank of America when I had deposited a two thousand dollar check on a MONDAY. Purchases till the following week were bounced and sent back. This is BOGUS the GOV. needs to regulate this practice immed.. Also with people doing automatic deposits from paychecks the bank takes this money out immed. You have to fight tooth and nail to get it back. ENOUGH IS ENOUGH REGULATE THESE CROOKS..
