Comments:

Bank overdraft fees are too high! I am with Bank of America and the fee is being charged before the transaction clears. If I have deposited money in my account after the transaction that has not cleared then why should I have to pay a fee for that! These are unfair practices and are not made public until it finally happens. The transactions should be paid as they come in not in a certain order. Please do something about these unfair practices. People are working hard in a tough economy we need protection from the giant companies who want to take the little we have left. The transactions should be paid as they come in not in a certain order. Please do something about these unfair practices. People are working hard in a tough economy we need protection from the giant companies who want to take the little we have left.
