Federal Reserve Board Email comments

Dear Email comments,

In the same month American Express admonished me for being 2 days late w/payment by upping my interest rate from ~17% to 33%, they sent me another letter saying due to my "excellent" credit, they were increasing my credit line. I called them, stripped my credit limit to \$500, paid off the balance, then cancelled my card. Congress has had at least 13 hearings on this and nothing has changed. I have only an iota of respect left for my federal government.

Sincerely,

Ms. Sue Fabian
